

Full Time/Entry Level Position: If you are looking to be part of a dynamic team of diversely trained clinicians committed to the long-term recovery of individuals suffering from addiction, then this is the opportunity for you. Ascension Counseling & Mental Health has forged a reputation as being a leader in the field of accountability court services and is an agency on the rise. This is an excellent opportunity for someone new to the addiction field. This opportunity is 50 percent clinical work and 50 percent administrative assignments. There are opportunities for professional development including mentoring and access to free training. The work environment is open, collaborative, and free from office politics. Qualified applicants must have excellent organizational skills, experience with Microsoft office, the ability to work in a fast-paced environment, highly effective communication skills, and the ability to be flexible with workflow.

Responsibilities may include but are not limited to the following:

Conducting research-based groups

Individual sessions

Entering notes into the electronic recordkeeping system

Collaborating with the Executive Director on special projects and assignments.

Preferred, but not required, certifications include: CCIT

Preferred, but not required, experience in evidence-based curricula includes Partners for Change Outcome Management System, MRT, T4C, Matrix Model, CBI-SA, Seeking Safety, etc.
