

Family Treatment Court Certification Application

As required by O.C.G.A. §§ 15-11-70, family treatment courts (FTC) must be certified by the Council of Accountability Court Judges (Council) to be eligible to receive state appropriated funds. The certification process is part of an effort to ensure FTCs are adhering to standards and practices that research has shown to improve outcomes. Below you will find the instructions for completing the attached Certification Application (Application) along with contact information if you have any questions or concerns.

The application is organized by the ten key components that were used to develop Georgia's *Standards for Accountability Courts*. Following each key component is an adopted standards benchmark (benchmark) prescribed by the Council, also found in Georgia's standards. The benchmarks are numbered as they are found in the Georgia standards. Each benchmark is categorized as a mandatory requirement or a best practice. The mandatory requirements represent the highest priority benchmarks, some of which are in statute. Your drug court team must meet these mandatory requirements or show evidence you are working towards them. Benchmarks that are categorized as best practices are often found in high performing programs. Your team should strive to meet these benchmarks but should place a higher priority on the mandatory requirements.

For every standard benchmark in the application, a certification requirement is listed. The requirements detail the steps your court should take to meet the adopted standards. For every certification requirement, a suggested location is provided. For example, many of the certification requirements suggest that forms or information be contained in a policy and procedure manual. You can look at your drug court's manual for these items, or if you do not meet the requirement, you can use the suggested location as a guide for implementation. There is a documentation section for each requirement. Please use this section to indicate if your court meets the requirement. You can also use this section to specify a supporting form or document for the requirement and to instruct the Standards and Certification Committee where to find the necessary attachments. For example, if you keep a list of your team members in the policy and procedure manual, attach a copy of the manual and indicate a page number. For every requirement your program meets, you must submit supporting documentation. You must respond to every certification requirement – do not leave any sections blank. If you do not meet a requirement, then you should mark *No*.

Please consult your family treatment court team as necessary when completing the application. Once you have filled out your application and have gathered the necessary attachments, please upload them <u>online here</u>. The presiding judge should review the application prior to submission and then sign the cover page. If the cover page is not signed by the presiding judge, the application will not be reviewed.

New courts that are still in the development phase may be eligible for a certification waiver. If you have questions about the certification process, please contact Madison Nash, Chief Certification Officer, at madison.nash@georgiacourts.gov.

Applicant Contact Information

Please fill out the following information before submitting your certification application to the Standards and Certification Committee. Please provide the best phone number and email address to contact the team member completing the application. The form must be signed by the presiding judges of all tracks before the Committee will review the application.

Program Information

Each judicial circuit has one family treatment court per the statute. The circuit FTC may have multiple programs or tracks serving different target populations, all within the umbrella of the circuit FTC. For example, an FTC might have a family drug court program and a family mental health court program that are both part of the circuit FTC. If your FTC only has one track (for example, if your circuit only has a family drug court), please just fill out one of the boxes below. For the FTC to be fully certified, all tracks must meet all mandatory standards. For each track/program within the circuit FTC, please provide the following information. If you need additional space for additional tracks, please contact Madison Nash at madison.nash@georgiacourts.gov.

Standard 1

Family Treatment Court (FTC) integrates substance abuse treatment services with dependency/child welfare/child abuse and neglect case processing.

Standard 1.1

Pursuant to O.C.G.A. §15-1-15, each FTC shall establish a planning group to create a work plan for the court. The work plan shall "address the operational, coordination, resource, information management, and evaluation needs" of the court and shall include all policies and practices related to implementing the standards set forth in this document. The family treatment court shall rely on judicial leadership for both planning and implementation of the court.
